

REPLACE HEAT WITH HORSEPOWER
PERFORMANCE CHARGE AIR COOLERS

2015 + FORD F-150 3.5L & 2.7L ECOBOOST
CARB APPROVED | SUPPORTS UP TO 750 HP

REPLACE HEAT WITH HORSEPOWER

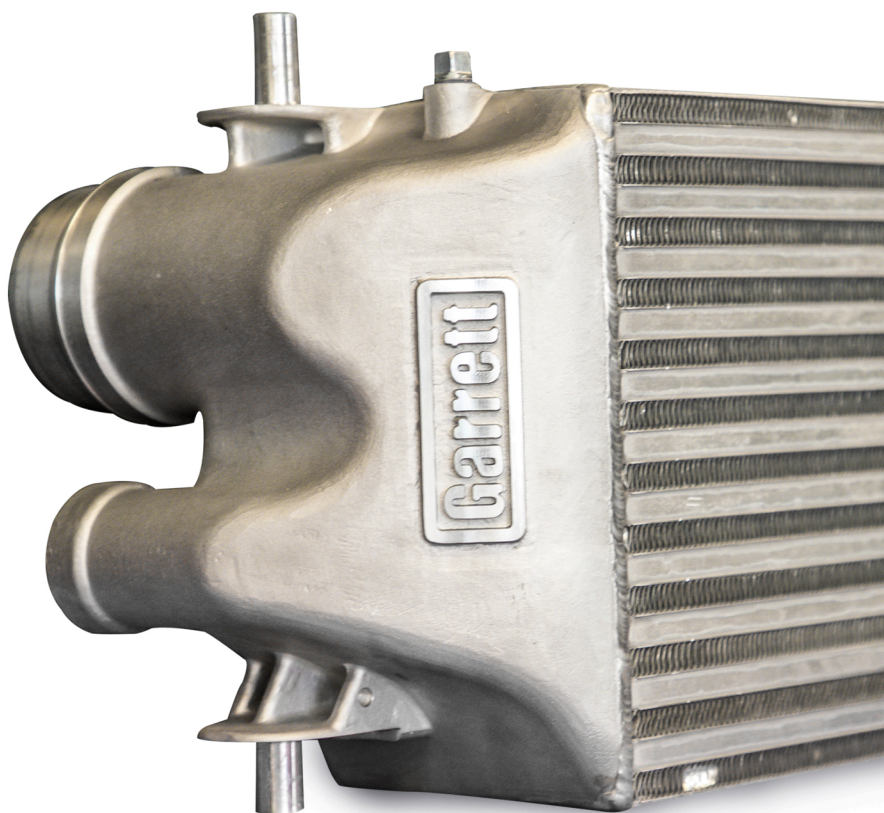

2015+ FORD F-150 3.5L & 2.7L ECOBOOST ENGINE PLATFORMS.

C.A.R.B. CERTIFIED PERFORMANCE CHARGE AIR COOLER SUPPORTS UP TO 750 HP

The Garrett® direct fit F150 and F150 Raptor performance charge air cooler boasts an 83% larger core than stock to provide an estimated 25 degree Fahrenheit reduction in air temperature and a 30% reduction in pressure drop. Optimized end tanks improve air flow through the core by improving turbulent design features found in the stock unit. This direct fit performance intercooler installs in 2 hours and can support up to 750 horsepower all while reusing the stock bolts, hoses, and clamps.

Features:

- Cast aluminum end tanks
- Advanced offset fin design
- TIG welded for improved strength
- Bar-and-plate design
- 83% larger intercooler core
- Up to 30 degree reduction in air temp
- Must remove intercooler grill shutters
- Compatible with Raptor and F-150

Part Number		870702-6001
Vehicle	Make	Ford
	Model	F-150 Raptor
	Year	2015+
Engine	Type	EcoBoost 3.5L / 2.7L
	Fuel	Gas
Size Specs	21" x 5.32" x 9.43"
